26th July 1984

Dear Sirs,

European Patent Application No. 82 301 286.9
Your Case: PM-1019 - Our File: 24799

We are pleased to report the issue of the advance notice of allowance in this case, and enclose a copy together with the proposed text for the issued patent.

We have checked the pages of the proposed text against our copy of the prosecuted application and find it to be in order. Only one amendment has been made by the Examiner, and that is the correction of an obvious typographical error in the general formula of claim 1. All therefore appears to be in order.

Nevertheless, we recommend that you should review the text for issue and, if you find any error requiring correction, let us know in time for us to notify the Patent Office within the term expiring 16th September 1984.

Yours faithfully,
